applications

## MiniFix

### Design and Construction:

- ◆ 2 cylinder lift, one lift one tilt
- ◆ Enclosed, pre-mounted power pack
- ◆ Out side mounted push button switches
- ◆ Bolt on installation, prepared for each model (specify model with lift order)
- ◆ Unit weight 360 Lbs.
- ◆ Ground roller
- ◆ Hand held remote

### Platform Specs:

- ◆ Extruded aluminum 62" x 55"
- ◆ Covered and protected tilt cylinder
- ◆ Built in spring loaded cartstop

### Built in Safety Features:

- ◆ Hydraulic cylinder locks
- ◆ Level ride platform

### Options:

- ◆ Foot controls in platform
- ◆ Auxiliary battery kit- Factory kit available through truck dealer

### Notes:

The Minifix accommodates the standard bumper not the optional step bumper on the Sprinter.

The spare tire has to be re-located from under the vehicle.

## CityFix

### Design and Construction:

- ◆ 2 cylinder lift
- ◆ Enclosed, pre-mounted power pack with back up hand pump
- ◆ Fast easy bolt on installation
- ◆ Unit weight 340-370 Lbs.
- ◆ Hand held remote control
- ◆ Lubrication free bushings

### Platform Specs:

- ◆ Steel 47" deep x 34" wide  
or 59" deep x 34" wide
- ◆ Built in spring loaded cartstop

### Options:

- ◆ Auxiliary battery kit- Factory kit available through truck dealer

### Notes:

The CityFix accommodates the different bumpers on the Sprinter. The spare tire can stay in place.

The longer platforms require more interior height in truck
